**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION*****Response to Arguments***

Applicant's arguments, see pages 6 and 7 of the response, filed 6/20/05, with respect to the rejection(s) of claim(s) 1, 8-10, and 14 under 35 U.S.C. 102 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of a reinterpretation of the reference.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 2, 8-11, 14, and 17 are rejected under 35 U.S.C. 102(e) as being anticipated by Fuesser et al. Fuesser discloses an active noise cancellation system in a vehicle comprising speaker 14, controller 17, and a communication portion which communicates a signal P to third means 27 in the controller 17. The signal P is a parameter related to the operation of the vehicle such as position of the gas pedal or the gear of the engine, as disclosed in column 7 lines 1-7. Thus, the user can communicate a selection indicating one of several available engine sounds to the controller by driving the vehicle in different gears or speeds. The communication portion being the accelerator pedal. Claims 1, 8-10, and 14 are met. As to claims 2, 11, and 17, the gear shift acts as a user communication interface.

***Allowable Subject Matter***

Art Unit: 2644

Claims 3-7, 12, 13, 15, 16 and 18-20 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Nakao et al, US Patent 5,617,315.
